

Introduction

As part of our topic work on winter we are exploring the seasons. We are learning the names of the four seasons and discussing how the weather changes in each season - and how this then affects our lives.

We will also talk about how plant and animal behaviours change throughout the different seasons.

One of our books this week is 'Tree' by Britta Teckentrup.

Our other book is 'Bear Snores On' by Karma Wilson.

Our song of the week is called 'The Seasons Song' and this can be found on YouTube [here](#).

Please note that because it is American Autumn is called 'Fall', and we will discuss this.

- Here comes the Spring with the rain pouring down.**
- Here comes the Spring with the flowers in the ground.**
- Here comes the Spring with the rainbow in the sky.**
- Here comes the Spring to bring new life.**
- Here comes the Summer with the heat from the sun.**
- Here comes the Summer with the kids having fun.**
- Here comes the Summer with the warm breeze.**
- Here comes the Summer with the trees so green.**
- Here comes the Fall with the leaves changing colour.**
- Here comes the Fall with the climate getting cooler.**
- Here comes the Fall with the leaves falling down.**
- Here comes the Fall with the wind blowing loud.**
- Here comes the Winter with the ice and the snow.**
- Here comes the Winter with the freezing cold.**
- Here comes the Winter with the days getting shorter.**
- Here comes the Winter with the nights getting longer.**

Ideas to try at home

- Create your own picture to show how some trees change throughout the seasons.
- Talk to your grown-up about the things that you enjoy doing in each season. It could be seeing fireworks or collecting leaves and conkers in Autumn. Or building snowmen, sledging and celebrating Christmas in Winter.

This Week's Makaton

Our Makaton actions this week are Autumn, Summer, Spring and Winter.

Autumn

Winter

Spring

Summer
