

We will be reading 'Jasper's Beanstalk' this week – which links to our planting activities outside. Please click [here](#)

Our song of the week is the Boogie Beebies song '**Digging a Hole**' which helps the children remember what needs to be done when we plant seeds. The children can listen to the song by following this [here](#).

Remember plants need soil!
Remember plants need light!
Remember they need water –
and they will turn out right.
Digging a hole yeah,
Planting a seed!
Water it and watch it start to grow -
Digging a hole, yeah!
Planting a seed,
Water it and watch it start to grow.

This week we will also find out about the royal family and what will happen at the King's Coronation, in London on Saturday.

Together, we will explore how different people celebrate national events, and as part of this the children will make their very own decorations.

Ideas to try at home:

- Chat with grown-ups at home about the different landmarks in London.
 - Have you ever visited any of these landmarks?
 - You could use the Internet to find photographs of King Charles III and the royal family and images of places such as Buckingham Palace and Westminster Abbey.
- Prepare some special party food with grown-ups to enjoy on coronation day with your family
- Make crowns or some decorations at home to display on coronation day.

This Week's Makaton Actions

This week we will learn the Makaton actions for ...
