

FS2 ECAT Term 6 | Week 3 | Under the Sea!

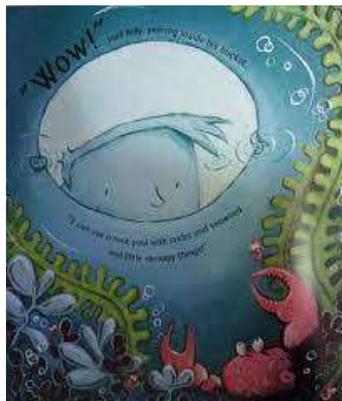

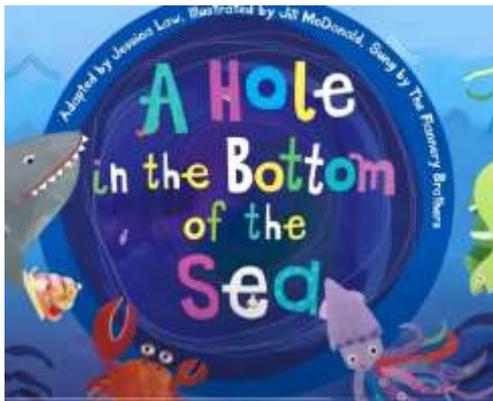

This week we will read a wonderful story by Kes Gray and Garry Parsons called, '**Billy's Bucket**'.

You can listen to the story together at home by hitting this [LINK](#).

Our song of the week is '**There is a Hole at the Bottom of the Sea**' and you can listen to the song by clicking [here](#).

Ideas to try at home

- Listen to the story and have a chat about why Billy's dad is surprised by Billy's choice of present.
- What does Billy do with the bucket?
- What does Billy see?
- Why doesn't Billy want anyone to borrow the bucket?
- What happens when the bucket is borrowed?
- Can you make a bucket? You can be as creative as you like. It could be made from a plastic cup, an old plant pot, or out of paper.
- What might you find in your bucket once it's made?
- Imagine you have a bucket like Billy. What might you see if you looked inside it?
- Have a go at drawing what is in your bucket. Can you then label your picture?

Click [here](#) for a great BBC Bitesize clip that shows some more incredible sea creatures in their ocean habitats:

Makaton

This week we will learn the Makaton actions for...

Flat hand brushes down and out from chest.

Palm down hand moves sideways in wavy motion.

Open index and middle finger move forward from eye.

Make the bucket shape then use one hand to pull up the handle.

Please click [here](#) for some more Makaton signs for sea creatures!
